1. EXECUTIVE MAYOR'S FOREWORD

The 2014/2015 budget is presented and approved in terms of section 24(1) of the Municipal Finance management Act no. 56 of 2003 which prescribes that " the municipal council must at least 30 days before the start of the budget year consider approval of the annual budget".

This budget is a final product of a lengthy and rigorous community and stakeholder's consultation through the IDP process and we can proudly pronounce that it has been enriched by the community inputs and comments. The community will definitely have no doubt that this budget surely belongs to them. Public participation process to the municipality is not a choice but a legal obligation which is imposed by Chapter 4 of the Municipal Systems Act 32 of 2000. In line with provision of sec 16 of the same Act the following Budget consultative meeting were held.

The 2014/2015 budget has maintained an approach of prioritizing the water services and 90% of the budget is reserved for it. The bulk of the water services budget has been reserved for the provision of bulk water infrastructure within different areas of the municipality with the main aim of reducing the bulk infrastructure backlog.

The provision of water by the municipality for it to be sustained, it must equally so go hand and hand with the payment of service for such a provision. The appointment of a debt collector and subsequent appointment of debt recovery lawyers will surely strengthen the efforts of the municipality in cost recovery. The quality of water as a commodity must be maintained so as to ensure safe and clean drinking water , however this cannot be achieved if there is no sufficient funds to maintain and also improve the standard of our water and other services that are provided by the municipality.

As we celebrate 20 years of democracy local government remains the focus point of the expectation of all our communities for the improvement of their livelihood , therefore this budget tries to achieve the basic service delivery expectations in relation to water and sanitation, roads and local economic development, community development and social cohesion.

At the current moment the 2014/2015 budget is however still not sufficient to cover all the infrastructure backlog ,it is therefore imperative that extraordinary initiatives need to be designed to ensure that the municipality is able to raise sufficient revenue so as cover all areas that need attention. All stakeholders must play their part in ensuring that revenue of the municipality is increased.

However despite our financial limitations we are still determined to attain our mission of bettering the lives of all our community through sustainable service delivery, job creation opportunities and public participation.

EXECUTIVE MAYOR
CLLR G T MTHIMUNYE

3. EXECUTIVE SUMMARY

Honorable Speaker this final budget is as a result of the following budget process schedule as approved by Council in terms of section 21 of the MFMA.

It should further be noted that the following are the legislative requirements;

In terms of Section 21 of the Municipal Finance Management Act 56 of 2003 (MFMA), the mayor of a municipality

- a) must co-ordinate the processes for preparing the annual budget and reviewing the municipality's Integrated Development Plan and budget related policies to ensure that the tabled budget and any revisions of the integrated development plan and budget related policies are mutually consistent and credible

Section 53 of the MFMA requires the mayor to provide general political guidance over the budget process and the priorities that must guide the preparation of a budget

The municipality's service delivery priorities were reviewed in line with the legislative and regulatory frameworks prescribed by the Municipal Finance Management Act (MFMA), Municipal Systems Act (MSA) and National Treasury Guidelines. Projects were prioritized in order to ensure that the municipality is investing in high priority projects as informed by the IDP.

Honorable Speaker, it came to light that the municipal tariffs are not cost reflective which means the cost incurred by the municipality in service rendering, are not recovered, in a bid to address that, the 2014/15 tariff adjustment are not at 5.7 CPI as guided by the national treasury circular number 72. Instead they are adjusted as follows;

A household increased by 7.5%
Business increased by 9.5%
Government increased by 8.5%

In view of the above, honorable Speaker it is suggested that Council approves the exemption in complying to the mentioned national treasury circular and also approve the implementation of the mentioned tariff adjustment which ideally seeks to achieve a situation whereby the municipality covers the cost incurred through the payment of services by the consumers.

The following budget principles and guidelines directly informed the compilation of the 2014/15 budget:

- The 2013/14 Budget performance
- Tariff and property rate increases affordability and the fact that they should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality, for instance the cost of bulk water. In addition the fact that tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;

In view of the abovementioned, the following table is a consolidated overview of the 2014/15 Revenue and Expenditure budget

Table 1:

REVENUE & EXPENDITURE SUMMARY	BUDGET		
	2014/2015	2015/2016	2016/2017
REVENUE	479 647 873	532 065 051	542 642 028

SURPLUS/(DEFICIT)	8 200 042	8 133 210	2 347 558

Total projected revenue for 2014/2015 financial year is at R479,947,873 and the total operating expenditure for the 2014/15 financial year has been appropriated at R346,342,849 which makes 72% of the total budget.

The capital budget is 26 per cent of the total budget.

National Division of Revenue Bill allocations reflect the appropriation of Grants such as MIG, while there are strict conditions and processes for municipalities to access and retain the funding. The municipality should therefore ensure that it strives by all means to meet the conditions of the grant in order to ensure that service delivery is not disadvantaged.

3.1 OPERATING REVENUE

For the municipality to continue improving the quality of services provided to its community it needs to generate the required revenue. In these tough economic times strong revenue management is essential to the financial sustainability of every municipality. The reality is that the municipality is faced with development backlogs and poverty. The expenditure required to address these challenges will certainly always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.
